

Forced Four SMART software change log:

ForcedFour SMART 2.04.zip – Version 2.04

- Added compatibility with SMART 100.1 using firmware version 2.0
- Download includes firmware file required for SMART 100.1
- Download includes firmware file required for SMART 150

ForcedFour SMART 2.03.zip - Version 2.03

- Add solenoid minimum current configurable for open circuit detection
- Disable PCS solenoid when engine RPM = 0 (engine not running)
- Revise "DI-5" input to more appropriately be called "AI-2 Switched State"
- Added "AI-1 Switched State"
- Added general purpose functionality to unused shift solenoid outputs
- Added option to invert solenoid output when used as general purpose output
- Download includes firmware file required for SMART 150

ForcedFour SMART 2.02.zip - Version 2.02

- Remove baud rate options
- Significantly increased connection speed
- Added support for SMART 25 firmware version 1.0
- Updated base map files for SMART 150 and SMART 25
- Added in app software update notifications
- Download includes firmware file required for SMART 150

ForcedFour SMART 2.01.zip - Version 2.01

- Revised connection timeout to prevent failed connections
- Download includes firmware file required for SMART 150

ForcedFour SMART 2.0.zip - Version 2.0

- Added SMART tips instead of outdated help pages
- GUI major facelift
- Improved shift map look and functionality
- Improved app reliability
- Reduced app ram usage
- Increased work space on app and increased screen size requirement
- Added support for user definable frequency input functions
- Switched inputs to function based for increased flexibility (SMART 150)
- Added support for Frequency inputs #3 & #4 (SMART 150)
- Added display of frequency inputs data for diag purposes (SMART 150)
- Added tables to support new line pressure control (SMART 150)
- Added support for SMART2 I/O expansion module (SMART 150)
- Added the capability to load and save device maps (SMART 150)
- Added the capability to edit device maps offline
- Only support for SMART 150 with this release
- Download includes firmware file required for SMART 150

ForcedFour SMART 1.9.4.0.zip - Version 1.9.4

- Required update for SMART 150 Version 1.4
- Added Solenoid A config data sent out
- Extended range of pulse per mile values

ForcedFour SMART 1.9.3.0.zip - Version 1.9.3

- Required update for SMART 150 Version 1.2

- Fix Lockup and Soft shift not allowing enable/disable on load
- Fixed USB data lag SMART 150
- Added ratchet shift capability SMART 150 version 1.2
- Improved increased test output functionality SMART 150 version 1.2

ForcedFour SMART 1.9.2.0.zip - Version 1.9.2

- Fix SMART 100.1 compatibility with 1.9.x software

ForcedFour SMART 1.9.1.0.zip - Version 1.9.1

- Fix lockup max and min values not updating correctly

ForcedFour SMART 1.9.0.0.zip - Version 1.9.0

- Fresh look and feel with updated settings lists
- Added auto baud, and support for 125,000 baud rate devices
- Added connection status indication
- Added support for SMART 150 release
- Moved DTC's to Advanced tab
- Added units option to view MPH or KPH

ForcedFour SMART 1.8.4.0.zip – Version 1.8.4

- Minor bug fixes on D/O's value not saving correctly

ForcedFour SMART 1.8.0.0.zip – Version 1.8

- Minor bug fixes on display of settings

ForcedFour SMART 1.7.0.0.zip – Version 1.7

- Added support for SMART 100.1 version 007 firmware
- Added support for SMART 75 version 004 firmware

ForcedFour SMART 1.6.0.8.zip – Version 1.6

- Fix installation issues on come Windows PC's

ForcedFour SMART 1.6.0.2.zip – Version 1.6

- Added data logging feature, compatible with all SMART 75 and SMART 100.1 versions

ForcedFour SMART_073018.zip – Version 1.5

- Added support for SMART100.1 firmware 001-006, SMART75 firmware 001-003

ForcedFour SMART_070218.zip – Version 1.4

- Added support for SMART100.1_006 firmware

ForcedFour SMART_111417.zip – Version 1.3

- Added refresh ports
- Added changes not saved indication

ForcedFour SMART_050317.zip – Version 1.2

- Added support for 6 speed ratchet with SMART+ module

ForcedFour SMART_042317.zip – Version 1.1

- Added support for the new SMART 100.1

ForcedFour SMART_012517.zip – Version 1.0

- Initial release with SMART 75
